The 1997 Annual Meeting of the WDDHLN was held in June at the home of Shari Gross. Outgoing Co-chairs Brenda Vegso and Elizabeth Andrushko handed over to the present executive. The importance of Network statistics was noted as a tool for promoting the Network to management. A business meeting was held in October, and a Christmas potluck in December at the home of Barbara Carter Scott. The February meeting was taken up by a DOCLINE demonstration by Bev Brown of CISTI. The March meeting was almost entirely taken up by the topic of copyright and hospital libraries' relationship with CANCOPY.

Restructuring has been a recurrent topic at all meetings. An updated eleventh edition of the Union Serials List is planned for 1998.

CHLA/ABSC facilitates and enables credible knowledge transfer in health sciences through leading edge technologies and partnerships. Our mission is to lead health librarians towards excellence through professional development, networking and advocacy.
